Item 14 - Authorizing the Board of Directors to resolve to issue new shares

The Board proposes that the Annual General Meeting decides to authorize the Board to, at one or several occasions prior to the next Annual General Meeting, resolve to issue new shares, issuing of warrants and/or issuing of convertible bonds. A new issue shall be possible with or without derogation from the shareholders' pre-emption rights. Pursuant to the proposal, the maximum amount of shares that may be issued based on the authorization, shall be 300,000,000, or, if the Annual General Meeting has resolved to aggregate shares in accordance with item 15 below, the maximum amount of shares shall be 30,000,000, which if exercised in full would be equal to a dilution of 19,78 percent of the number of outstanding shares and votes, based on the number of shares and votes that are outstanding as per the date of this notice including outstanding warrants. The reason for derogation from the shareholders' right of pre-emption, is that the Company should be able to acquire new legal entities and/or debt portfolios.

Furthermore, the authorization shall contain the right to decide on new issue with cash payment, payment through off-set or payment with non-cash consideration, and otherwise combine with conditions referred in Chapter 2, Section 5, Paragraph 2, item 2-3 and 5, the Swedish Companies Act.

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum two thirds (2/3) of the votes as well as the shares represented at the Annual General Meeting.

Item 15 - Resolution regarding (a) aggregation of shares, (b) authorization for the Board of Directors to resolve on the record date, (c) adoption of new Articles of Association and (d) approval of a possible share issue in order to equalize the numbers of shares

- (a) The Board proposes that the Annual General Meeting decides on the aggregation of shares in relation 1:10, which implies that ten (10) existing shares will be aggregated into one (1) new share.
- (b) The Board proposes that the Annual General Meeting decides to authorize the Board to decide the date for completion of the aggregation (i.e. the record date).
- (c) Further, the Board proposes that the Annual General Meeting, in order to be able to carry out the aggregation in (a) above and to increase the maximum amount of shares that may be issued, decides to amend the Articles of Association. The amendment of the Articles of Association implies that the number of shares that may be issued changes from previously a minimum of 1,000,000,000 to a maximum of 2,000,000,000 to a minimum of 100,000,000 to a maximum of 400,000,000 and that the maximum share capital shall be raised from EUR

100,000,000 to EUR 200,000,000. Finally, the board proposes that section 11 under paragraph 12 shall be stated as follows “*Other matters to be addressed at the Annual General Meeting pursuant to from time to time valid laws or regulations*”.

- (d) In order to be able to complete the aggregation of shares without having to withdraw shares, the Board asks for the Annual General Meeting’s approval to use the authorization in item 14 above, to resolve on a directed share issue in a maximum amount of nine (9) shares.

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum two thirds (2/3) of the votes as well as the shares represented at the Annual General Meeting.

Item 16 – Resolution regarding re-registration of the Company to a SE-company (Societas Europaea).

The Board proposes that the Annual General Meeting decides to adopt a conversion plan which implies that the Company is to be converted into a SE-company (*Societas Europaea*).

Background and purpose of the proposal

The Company operates its business through subsidiaries in Sweden, Norway, Germany, Italy and Spain. Thus, a conversion into the standardized international business enterprise SE-company would facilitate the Company's business and reduce the necessary administrative work.

Given that the Company is listed on the Oslo Stock Exchange with a large segment of Norwegian shareholders and that the Company's management is located in Oslo (since April 2016, the Company operates (through a subsidiary) in Norway as well), the Company is strongly associated with Norway. The intention with the conversion into a SE-company is also to relocate the Company's domiciliation to Norway as soon as possible after the completion of the conversion in order to further reduce the administrative work resulting from the fact that the Company is a Swedish public limited liability company listed on the Oslo Stock Exchange.

Conversion plan and underlying documents

The conversion plan and other underlying documents will be published on the Company's website no later than three weeks prior to the Annual General Meeting and will be presented at the Annual General Meeting. The conversion plan will be published in the Swedish online newspaper (Post- och Inrikes Tidningar) as of this day and will be available on www.poit.se.

The resolution pursuant to this item 16 is conditioned by the Annual General Meeting's approval of the proposal of adopting the Articles of Association in item 17 below.

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum two thirds (2/3) of the votes as well as the shares represented at the Annual General Meeting.

Item 17 - Resolution on adoption of a new SE-company Articles of Association

The Board proposes that the Annual General Meeting decides to amend the Articles of Association. The amendment of the Articles of Association implies that the Company's name will be changed from Axactor AB (publ) to Axactor SE and that section 6 of the Articles of Association shall have the following new wording:

“The administrative organ (Board of Directors)

The Company is organized in accordance with the one-tier system. The administrative organ shall constitute of minimum three (3) and maximum six (6) directors and minimum zero (0) and maximum six (6) deputies. Members of the administrative organ and any deputy members shall be elected annually at the Annual General Meeting for the time until the end of the next Annual General Meeting. The administrative organ shall meet at least every three months.”

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum two thirds (2/3) of the votes as well as the shares represented at the Annual General Meeting.

Item 18 - Amendments of the terms and conditions for the Employee Stock Option Programs and thereto related warrants adopted on the extraordinary general meeting on November 17th, 2015 and on the Annual General Meeting on May 31st, 2017.

The Board proposes that the Annual General Meeting decides to amend the terms and conditions in the Employee Option Programs adopted on the extraordinary general meeting on November 17th, 2015 and thereto related warrants (hereafter “**ESOP 2015**”) and on the Annual General Meeting on May 31st, 2017 (hereafter “**ESOP 2017**”).

Background and purpose

The Company has two ongoing employee option programs, ESOP 2015 and ESOP 2017. The purpose of the programs is to provide the Company key personnel incentives and to create a personal long-term ownership commitment of employees that can be expected to stimulate an increased interest in the Company’s operations and earnings development, raising motivation and the feeling of togetherness with the Axactor Group and its shareholders.

In order to give the employee stock option holders further incentives to stay within the Company and develop the Company’s business as well as to increase the flexibility of the employee option programs, the Board suggests extension of the duration of each program with one (1) additional year and greater flexibility for the employee stock option holders to utilize the stock options. The amendments imply that the employee stock option holders are given the right, but not an obligation, to subscribe for shares in the Company at a later stage than the present employee stock option programs allows and also that the employee stock option holders may decline to exercise employee stock options attributable to a certain tranche/subscription period without the expiration of such stock options. The latter amendment thus implies that unutilized employee stock options attributable to a certain tranche/subscription period may be exercised during a subsequent tranche/subscription period.

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum nine tenths (9/10) of the votes as well as the shares represented at the Annual General Meeting.

Item 19 (a) – Authorization for the Board of Directors to acquire own shares

The Board proposes that the Annual General Meeting authorizes the Board to acquire own shares in order to execute the Annual General Meeting’s resolution pursuant to item 19(b) below.

The Board is authorized, until the next annual general meeting, to decide on acquisition of shares in the Company pursuant to the following:

- (i) Acquisition of own shares may not lead to that the Company group's total holding of own shares after acquisition exceeds two (2) percent of the total of all shares registered in the Company.
- (ii) Acquisition may take place at one or several occasions during the time until the next annual general meeting.
- (iii) Acquisition may take place through trade on the regulated marketplace the Oslo Stock Exchange.
- (iv) Acquisition may only take place for a price per share that falls within the currently registered price range.
- (v) Payment for the shares shall be made in cash.

For a resolution, pursuant to this item, to be valid, the proposal shall be supported by shareholders represented by minimum two thirds (2/3) of the votes as well as the shares represented at the Annual General Meeting.

Item 19 (b) – Resolution regarding transfer of own shares within the frame of the Employee Stock Option Program

The Board proposes that the Annual General Meeting decides on transfers of own shares within the frame of the Employee Stock Option Programs ESOP 2015 and ESOP 2017 respectively, pursuant to the following:

- (i) Transfers may take place of all own shares held by the Company at the times when the Board executes the Annual General Meeting's resolutions.
- (ii) Transfers may take place during the time periods stated in ESOP 2015 and ESOP 2017, respectively.
- (iii) Transfers of shares may take place to the holders of employee stock options within the frame of Employee Stock Option Program ESOP 2015 and ESOP 2017, i.e. through trade outside a regulated marketplace.
- (iv) Transfers may only take place for a price per share as set out in the terms and conditions for the Employee Stock Option Programs ESOP 2015 and ESOP 2017, respectively.
- (v) Payment for transferred shares shall be made in cash and within the time periods stated in ESOP 2015 and ESOP 2017, respectively.
- (vi) Other terms and conditions for transfers of own shares within the frame of ESOP 2015 and ESOP 2017, respectively, are stated in the option programs mentioned.

The reason for the deviation from the shareholders' right of pre-emption by a transfer of shares and the basis for the share price is the fulfillment of the Employment Stock Option Programs ESOP 2015 and ESOP 2017, respectively.

The Board proposes that the Annual General Meeting authorizes the Board to execute the transfers of own shares within the frame of the Employment Stock Option Programs ESOP 2015 and ESOP 2017, respectively as decided by the Annual General Meeting.

In connection to the regulation of the Employee Stock Option Programs ESOP 2015 and ESOP 2017 respectively, the Board shall always act in order to, in the best way possible, promote the interests of the Company by taking into account the Company's right and possibility to regulate the employee stock options through exercising the related warrants and/or through transfer of own shares and/or through cash remuneration.

For a resolution, regarding transfer of own shares within the frame of ESOP 2015 and ESOP 2017 respectively, to be valid, the proposal must be supported by shareholders represented by minimum nine tenths (9/10) of the votes as well as the shares represented at the Annual General Meeting.

Item 21 - Resolution regarding authorization to adopt minor adjustments of the resolutions

The Board proposes that the Annual General Meeting authorizes the Board, the CEO or anyone that the Board otherwise appoints, to adopt minor adjustments and clarifications of the resolutions made at the Annual General Meeting to the extent that this is required for registration at the Swedish Companies Registration Office and/or Euroclear Sweden AB.

The duty of disclosure also pertains to the consolidated account statement.

Corporate governance – Given that Axactor AB (publ) is a Swedish limited liability company listed on the Oslo Stock Exchange, the Norwegian Code of Corporate Governance (the "**Code**") is not directly applicable to the Company. The Company is, however, listed in Norway and to a great extent directed to the Norwegian investment market, and wishes to maintain sound corporate governance. The Company has therefore developed a policy document on the basis of the Code, but with necessary adjustments due to the Company's Swedish domicile. The Boards corporate governance document will be available on the Company's webpage, www.axactor.com.
